CORPORATE PROFILE
Nahar Integrated System Services

the complete solutions
for your BUSINESS....

2007

Corporate Member of the Nahar Group of Companies, NISS is a dominant player in the Indian Information Technology market space. Over a period spanning 12 years, NISS continues to cater and successfully endorse the needs of over 150 industries in and around Pune.

We believe in being partners in your success and would not hesitate to go that extra mile to give our clients complete satisfaction.

We would like to be referred as the “Most Preferred Vendor”.

NISS endeavors towards building long term relationships with our clients and work hand in hand with you to provide technically appropriate and feasible solutions at optimum costs.

Our constant effort to excel has created a strong base of happy clients. To name a few renowned companies like Honeywell, EmCure, Kalyani Groups, Aditya Birla Groups, Finolex Group etc.

CEO, Mr. Shital Nahar

Our CEO Mr. Shital Nahar, is a computer graduate (B.E.Comp.) also an Electrical Diploma holder having immense service oriented experience in the IT industry. With sound technical knowledge and experience, he personally provides guidance to our competent and dedicated team of service engineers and sales executives.

Director, Mrs. Vaishali Nahar

BDS by profession, Mrs. Vaishali Nahar heads the Infrastructure & Accounting departments of the company. While she works with the administration front of the company to improve the business ecosystem, Mrs. Vaishali Nahar has also been focused on managing quality at NISS.

Our team

Our people are our most valuable assets. Wedded to the concept of excellence, our technically sound sales and service team believes in delivering services by understanding and speaking your language with a single goal to deliver value.

All the members are committed to improve quality of service through conscious efforts. We work with a mission to create satisfied customers and move further towards customer's delight.

Achievements

-> More than 1000+ Installations in and around Pune.

-> More than 90+ Corporate Customers.

-> Customers spanning across Defense, Government, Educational, SOHO & Corporate Segments.

Services Offered

- > Networking Solutions
- > AMC's
- > Data Center Design
- > Power Solutions
- > Computers on Hire

At NISS we offer a wide range of computing services.

Whether it's a new Networking requirement, an up gradation of Data Centre, providing competitive Annual Maintenance Contracts, computer troubleshooting/repair/networking, our extensive range of services covers every base.

Our rates are competitive and generally quoted on a per-project basis, representative of our hourly rates. Project charges vary with the level of detail, research and set up required for each.

Why choose us?

Enterprise IT & Security Focused

NISS has always been focused on Enterprise Technology and Networking services, and we're comfortable with the challenges that are unique to large organizations.

Deep and Broad Experience

Strong past performance and references across industry verticals, including Government (DoD), State and Municipal Government, Critical Infrastructure, Finance, Insurance, K-12 Education, Higher Education and Healthcare.

Cost Competitive

While rarely the lowest bidder on a given engagement, our clients consistently tell us we are best value, providing a balance of cost and quality.

Certified Subject Matter Experts

NISS places heavy emphasis on certification of our consultants and managers. Most of our consultants hold multiple technical and vendor certifications, including those from Cisco, Microsoft and others.

Nationally Recognized & Industry Awards

NISS has been recognized by organizations such as IBM, Microsoft and a host of other leading Industry Players.

Fiscally sound

NISS is privately held and well capitalized.

When a business is small, every wasted minute is extremely costly, every minute put to good use is valuable.

-> How much more could you accomplish if you could connect with the Internet instantly and stay connected all day?

-> What could you do with the time saved from fast downloads of large files?

-> How much more productive could your business be if you received e-mails the moment they arrive, and could respond just as quickly - no re-connects or disconnects?

Our Solutions dramatically increases your business's performance - with high-speed access and always-on connectivity, plus integrated products and services geared to your operations.

With small offices on the rise, more and more businesses are in need to use a computer network. Our solution offers a simple, secure and transparent SOHO solutions supported by centralized policy management with scalability allowing for cross-platform virus protection on an enterprise-wide basis.
